Tom:

Please use the number and access code I provided in my email: Call in number is [Nonresponsive Conference Code]

Sorry for any confusion.

Thanks, Palmer

Palmer,

Thank you very much for your efforts to allow me to participate in this important meeting. I registered using the link below but am a bit uncertain, as the reply that I got from the system gave me a telephone number to call that differs from the one you list below (it gave me [Nonresponsive Conference Code] and it also gave me a different access code [Nonresponsive Conference Code] from the one listed below.

I have not made use of this system before and so I do not want to waste valuable time once we try to start the meeting. Can you or someone perhaps clarify which phone number I should use, and which code?

thanks,

Tom

p.s. It being 9 am in Seattle and noon in DC, I guess we have two hours to sort this out...

TQ
